What is KILLOX?
KILLOX is a food supplement with Curcuma, Resveratrol, Zinc and N-Acetylcysteine. Curcuma possesses antioxidant activities, Zinc contributes to cell protection from oxidative stress.

When is KILLOX recommended for the consumption?
KILLOX is recommended:
- for the reduction of free radicals that are generated during inflammatory processes, both severe and chronic,
- in all cases where an antioxidant activity is necessary,
- in inflammatory processes of the male and female urogenital system,
- in case of benign prostatic hypertrophy, in case of orchitis, prostatitis, cystitis and during post-surgery period after urogenital system operations.

What does KILLOX contain?
Bulking agents: mycrocrystalline cellulose, dicalcium phosphate, curcum and resveratrol Enterosoma-I® [association of: curcuma (Curcuma longa L., rhizome) e.s. tit. at 95% min. in curcuminoid tot., N-acetylcysteine, grapefruit (Citrus paradisi Macfad, seeds) e.s., chitosan (shellfish byproduct), resveratrol from polygon roots (Polygonum cuspidatum Siebold & Zucc), black pepper (Pier nigrum L, fruit) e.s., emulsifier: polysorbate 80], coating agents: shellac, hydroxypropyl methylcellulose, glycerol, stearic acid, mycrocrystalline cellulose; zinc gluconate, stabilizer: reticulated sodium carboxymethyl cellulose; anticaking agent: silicon dioxide, magnesium stearate.

KILLOX acts thanks to the synergy of its active ingredients.
Curcuma extract is titled at 95% among curcuminoids, substances that have proven to possess antioxidant, anti-inflammatory and antiviral properties.
Resveratrol extracted from Polygonum cuspidatum’s roots, thanks to its chemical structure neutralizes free radicals. It also possesses a powerful antioxidant activity.
Zinc contributes to the normal functioning of the immune system and the cell protection from oxidative stress.
N-acetylcysteine is a glutathione precursor, the most powerful and important among all the antioxidants produced by the organism.

What does Enterosoma-I® mean?
It is a technology that improves the active ingredient’s flow through the intestinal epithelium and therefore improves its absorption, increasing its effectiveness.

How should KILLOX be taken?
Take 1-2 tablet/s a day according to your needs and your doctor’s advice. Swallow the tablet whole, with some water, half an hour before every meal.

How long should KILLOX be taken?
For urogenital indication it is recommended to take 2 tablets a day for 10 days. At a later stage, according to your physician’s advice and according to the amount of drugs taken, it is recommended to take two tablets a day for 10 more days or one tablet a day for twenty days.
For antioxidant protection it is possible to extend the consumption for longer periods taking only one tablet a day.

Are there any contraindications to the use of KILLOX?
Yes. The product must not be taken in case of allergy to shellfish or any of the product’s ingredients.

May KILLOX be taken in case of gluten or lactose intolerance?
Yes. Each KILLOX batch undergoes inspections in order to guarantee its quality for the consumer. The product also undergoes specific analysis to ensure the absence of gluten or lactose.

May KILLOX be taken while pregnant or breastfeeding?
No contraindications have been reported but we recommend to ask your doctor before taking the product.

May KILLOX be taken while taking other drugs?
No interactions have been reported between KILLOX and other drugs. The product is generally well tolerated and has not shown any side effect even after long lasting administrations. We not recommend the product intake for patients who take acenocoumarol (drug used in the prevention and treatment of thromoembolic diseases). Ask your doctor or pharmacist in case you notice any side effect.

How must KILLOX be preserved?
Because of safety reasons the product must be kept out of reach of children under three years of age. Keep the product in a room no warmer than 25°C. Avoid direct localized heat sources, sunbeams and water contact. The minimum term of preservation refers to the intact product package correctly preserved.

Where may I buy KILLOX and in what packing is it available?
KILLOX may be bought in pharmacies without any medical prescription. The pack contains 20 tablets.
